

Freezer

Upright Frost Free Freezer

Our classic frost-free upright freezer is 160 litres of convenience. Designed with energy efficiency in mind, the transparent drawers, slim upright stature and rapid freeze function, make it the perfect addition to any home.

Frost Free Freezer

Say goodbye to manually defrosting your freezer. The Mitsubishi Electric Frost Free Freezer automatically prevents ice build up.

Rapid Freeze Mode

To freeze items quickly, simply press the "Rapid Freeze" button to activate the special fast-freeze cycle, locking in freshness.

Slimline Upright Design

The modern Slimline Design features a door that opens beyond 90 degrees, allowing for the easy removal of drawers for cleaning.

Transparent Drawers

Allows for quick and easy selection of items, minimising the amount of time spent with the door open, reducing the loss of cold air and saving energy.

Energy Efficient Design

- The External Temperature Control Panel allows adjustments to be made easily without losing cool air.
- The Multi Purpose Sliding Cases keep the freezer cooler by minimising loss of cool air.
- The Aluminium Tray speeds up freezing time, and is especially effective for quickly freezing large bulky items when using Rapid Freeze Mode.

Warranty

Every Mitsubishi Electric Refrigerator is backed by a 2 Year Parts and Labour Warranty and a 5 Year Compressor Warranty.

The ultimate in freshness and style

Since 1954 the engineers at Mitsubishi Electric have become experts at developing reliable, design-orientated, and functional refrigerators. Sixty one years later we are pleased to introduce our latest range, with a refrigerator to suit any home and any lifestyle. Designed and engineered in the pursuit of excellence, our refrigerators have been developed with superior food storage in mind and have been tested with uncompromising precision.

When creating this range our engineers adopted a 'Form Follows Function' design philosophy. This has resulted in a range of feature driven refrigerators that are specifically designed to keep food fresh as nature intended. Our refrigerators were also developed with an understanding that with open plan living the kitchen has truly become the heart of the home. It is no longer a purely functional space, but an expression of design and personality. This is why we are proud to introduce a range with unique colours, finishes, and designs to match any kitchen.
