

Jet Towel™

Mitsubishi Electric is the original inventor and pioneer of the modern high-speed hand dryer since 1993.

In 1992, new advances in compact DC brushless motor technology were developed at the Nakatsugawa Works, a Mitsubishi Electric factory located in Central Japan. While thinking of applications for the new motor, engineers came up with the novel idea of using high-powered jets of air to

rapidly blow water off of the hands instead of relying on evaporation like conventional electric dryers. As a result, the Jet Towel was officially released in 1993 and hand drying has not been the same ever since.

Choose the Jet Towel for an authentic, premium high-speed hand dryer

World's
First

Open-Side Design
and
Dual-Jet Drying

For speedy and
easy hand drying.

Original
Technology

Wave Nozzle Ultra-quiet operation

A patented wave nozzle developed from fluid control technology minimizes sound-causing turbulence.

*Jet Towel Slim series hand dryer; Released in September, 2010; Based on in-house research

Upper and Lower Sensor Operation Comfortable use

Two sensors automatically detect the insertion and withdrawal of hands for smooth and reliable hands-free operation.

*Jet Towel Slim series hand dryer; Released in February, 1993; Based on in-house research

Separated Air Intake Hygienic design

The air intake duct is located separately from the water drainage duct to prevent the intake of water.

*Jet Towel Slim series hand dryer; Released in November, 1993; Based on in-house research

Model Line Up

New 9th generation
dual-nozzle flagship model

Jet Towel Slim

with heater

JT-SB216JSH2

White / Silver / Grey

w/o heater

JT-SB216KSN2

White

Compact but powerful,
with a protective metal cover

Jet Towel Smart

with heater

JT-S2AP

White / Silver

A heater-less version of the Jet Towel
Smart, with a highly durable plastic cover

Jet Towel Smart Lite

w/o heater

JT-S2A

White
