

Refrigeration

L4-Grande

The L4 Grande Range features an ergonomic four door layout designed to reflect the most frequently used fridge spaces. This is combined with a two tone finish to create a user friendly refrigerator with a stylish exterior design.

Neuro Inverter Technology

The use of inverter technology means this fridge is one of the most efficient and quietest in its size class in New Zealand. The L4 Grande Range seamlessly memorises your usage patterns and adapts its power levels for superior energy efficiency. This means it will run on minimal power overnight, for example, for more energy savings.

Designed for Large Living

At an impressive 650 and 710 litres, the L4 Grande Range is designed for larger living. With an internal width of 800mm this refrigerator provides you with maximum storage capacity for grocery types of any size, ensuring you will never be caught short of space.

A French Door Design also allows for significantly more usable space when compared to a side-by-side fridge, particularly for bulkier items such as wide platters.

Vitalight Technology

The unique LED lighting system is designed to slow down the wilting process and maintain vitamin and anti-oxidant levels for longer.

LED Control Panel

The L4 Grande Range features smart operation modes including Rapid Cool and Eco Mode - an energy saving setting which maintains an even desired temperature.

Energy Star Efficiency

Mitsubishi Electric's superior technology has led to the L4 Grande achieving the Energy Star Mark - the highest efficiency award for a product of its kind in this category.

650 Litres

Model range

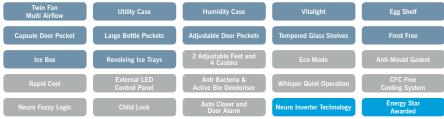

Stainless Steel Diamond Black

MR-L650EH 950W x 764D x 1700H mm 805D including handles

Pearl White (650L only)* Stainless Steel Diamond Black

All Features: MR-L710EG and MR-L650EH

*MR-L650EH Pearl White available at selected retailers only.

1. Capsule Case

For convenient and secure storage of smaller items.

2. Adjustable Pockets

Storage is simple with adjustable door pockets, which can change in size to suit the item you're storing.

3. Tempered Glass Shelves

Heat resistant, easy to clean, and adjustable to allow for customisation - these shelves have been built to withstand up to 100 kilograms of weight.

4. LED Lighting

The energy efficient LED lighting will illuminate your refrigerator up to 50 times longer than an average refrigerator light bulb.

5. Humidity Case

Adjustable Humidity Control allows for customisation of the humidity case to create the ideal environment for fruit and vegetables, ensuring freshness.

6. Vitalight

The unique LED lighting system is designed to slow down the wilting process and maintain vitamin and anti-oxidant levels for longer.

7. Utility Cases

The utility case is perfect for separating dairy products, fresh fish or meat, and chilling drinks.

8. Large Bottle Pockets

The door pocket features large bottle pockets for convenient storage of drinks and condiments.

Three Revolving Ice Trays

Three revolving trays release ice cubes into the ice box with a simple twist.

10. Freezer Cases

The L4 Grande features a large, medium and two smaller storage compartments for frozen foods. This ensures you have an easy to use organised freezer.

11. Ergonomic Design

Stylish aluminum handles provide space for a comfortable grip.

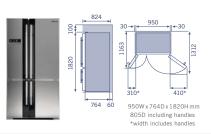

12. Twin Fan Multi Airflow

Twin ventilator fans blow and circulate air at various levels throughout the refrigerator and freezer compartments. This allows for even cooling distribution and keeps food fresher for longer.

Warranty

Every Mitsubishi Electric Refrigerator is backed by a 2 Year Parts and Labour Warranty and a 5 Year Compressor Warranty.

The ultimate in freshness and style

Since 1954 the engineers at Mitsubishi Electric have become experts at developing reliable, design-orientated, and functional refrigerators. Sixty two years later we are pleased to introduce our latest range, with a refrigerator to suit any home and any lifestyle. Designed and engineered in the pursuit of excellence, our refrigerators have been developed with superior food storage in mind and have been tested with uncompromising precision.

When creating this range our engineers adopted a 'Form Follows Function' design philosophy. This has resulted in a range of feature driven refrigerators that are specifically designed to keep food fresh as nature intended. Our refrigerators were also developed with an understanding that with open plan living the kitchen has truly become the heart of the home. It is no longer a purely functional space, but an expression of design and personality. This is why we are proud to introduce a range with unique colours, finishes, and designs to match any kitchen.
