Glass Door Panels

The L4 Quad Door features stunning glass flat panel doors, for a real style statement in your kitchen. Durable, easy to clean and dent resistant the glass panels can also act as a whiteboard.

Humidity Crisper Bin with Vitalight Technology

Slow the wilting process of leafy greens and maintain their vitamin and antioxidant levels with the unique Vitalight Amber LED Lighting System. Fruit and vegetables last longer in this bin compared to conventional vegetable crisper bins.

Non-Plumbed Automatic Ice Maker

Always have fresh, clean ice! As there is no separate plumbing connection required, this cost-effective approach to ice making means the fridge can be placed anywhere in the kitchen, not just near existing pipe work.

Inverter Technology Maximising Energy Efficiency

The L4 Quad Door utilises Neuro Fuzzy Logic Technology combined with monitored temperature sensors to learn from and adapt to your lifestyle, making it one of the most energy efficient fridges in New Zealand.

Convenient Touch Panel Control

At the touch of a button you can rapidly cool or freeze a large quantity of food, activate the energy saving mode and stop or start making ice.

Quiet Operation

At only 21dBA, the L4 Quad Door is perfectly quiet for open plan living spaces.

1. Refrigerator Compartment

- Large Refrigerator Capacity (456L or 401L)
