

LX Series Inverter French Door – Designed for Open Plan Living

Quiet Luxury

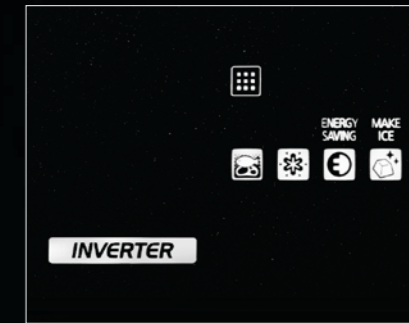

Designed for Style

The LX French Door Designer Series is a true style statement. Featuring a stunning glass flat panel design, large capacity with a slimline exterior, touch panel controls and advanced whisper quiet energy efficiency – the LX French Door Designer Series truly sets a new standard in refrigeration.

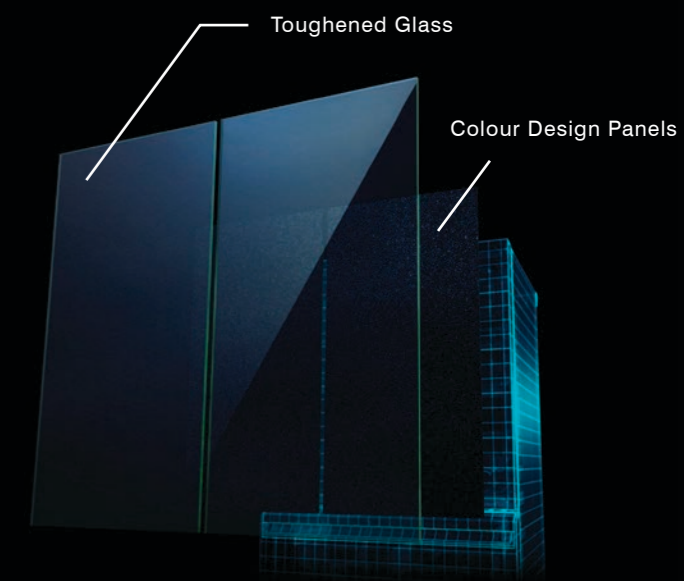

Glass Door Finish

Providing a luxurious, striking finish like no other, the toughened glass panels look great and are easy to keep clean. A concealed LED Touch Panel lights up to provide access to advanced functions.

Touch Panel

Large Capacity

The LX French Door Designer Series is designed for larger living. With a total refrigeration compartment of 333 litres and an internal width of 760mm, the LX Series provides you with maximum storage capacity for the widest of platters and the bulkiest groceries. The LX Series also features door pockets that are 170mm deep, providing room for a total of five 3L milk bottles!

Supercool Chilling Case

Set between -3°C and 0°C , the Supercool Chilling Case is ideal for storing fresh cuts of meat for up to 7 days, and fish for up to 5 days, without freezing.

Wide Chilled Case

The Wide Chilled Case can be conveniently used to store both dairy and processed meats, or quickly chill canned and bottled beverages for when unexpected guests arrive.

Vitalight LED System

Vitalight Humidity Drawer

The unique Vitalight LED Lighting System is designed to slow down the wilting process of leafy greens; maintaining their original vitamin and antioxidant levels for longer. Fruit and vegetables stored in the specially designed Humidity Drawer with its integrated Vitalight LED Lighting System will last significantly longer in comparison to conventional vegetable crisper bins.

After 1 week of storage

Vitalight System

Conventional Fridge

Automatic Ice Maker

The Non-Plumbed Automatic Ice Maker features a long life water tank purification system that is easy to remove and clean to ensure you always have fresh, clean ice anytime. There is no separate plumbing connection required, so the fridge can be placed anywhere in the kitchen. Simply fill the removable water tank and the Ice Maker is ready to go!

Freezer Drawer

The large capacity Freezer Drawer features a convenient sliding top tray – ideal for flat pack or frequently accessed items. It can be easily pushed back to reveal more space to store bulky items.

Inverter Compressor

Multi Fans

By learning and adapting to your lifestyle, **Neuro Fuzzy Logic Technology** optimises both the Inverter Compressor and the Multi Fans to achieve unparalleled energy efficiency.

Unparalleled Energy Efficiency

The use of super efficient Inverter Technology combined with 9 monitored temperature sensors throughout the refrigerator makes the LX Series one of the most energy efficient French Door Multi Drawer Refrigerators in New Zealand.

The LX is able to accurately control the temperature of each drawer to ensure superior customisation and minimal temperature fluctuations. With Neuro Fuzzy Logic Technology, the LX learns from and adapts to your lifestyle, optimising output for unparalleled energy efficiency.

Unrivalled for Quietness

When it comes to kitchen design and appliance choice, quiet operation is becoming more and more important. At 19dBA, the LX French Door Designer Series is one of the quietest Large Capacity French Door Two Drawer Refrigerators in New Zealand.

Designed for Entertaining

With a total capacity of 630 litres, including two ergonomic drawer compartments, the LX French Door Designer Series is designed to fit around your lifestyle. From daily family meals to large weekend dinner parties – the LX French Door Designer Series offers unparalleled space and convenience.

Designed for Open Plan Living

Our engineers understand that with the trend of open plan living becoming more prevalent, the kitchen has truly become the heart of the home.

So when it comes to kitchen design and appliance choice, quiet operation is becoming more and more important. At only 19dBA, the LX French Door Designer Series is a style statement you can see but won't hear!

Designed for Freshness

The freshest ingredients deserve the best of care. The LX French Door Designer Series is specifically designed for those who care about preserving the quality and freshness of all kinds of food. Sleek aesthetics and advanced food storage technology will appeal to entertainers and food lovers alike.
