Quiet Operation

Designer Series indoor units feature Silent Mode – a fan speed setting that provides quiet operation as low as 21dBA. This means that you will feel the warmth, not hear it.

Advanced Filtration

Designer Series Heat Pumps offer two types of filters. The Nano Platinum Filter not only improves air quality but also reduces airborne bacteria. The optional Electrostatic Anti-Allergy Enzyme Filter effectively combats common allergens.

Red Dot Design Award

The Designer Series, with its contemporary slimline profile, has been awarded the prestigious Red Dot Design Award 2015 in recognition for outstanding design quality. The international jury only confers this sought-after seal of quality to products that set themselves apart significantly from comparable products thanks to their excellent design.

7-Day Programmable Controller

All Designer Series Heat Pumps feature a built in weekly timer, allowing you to program up to four time and temperature settings for each day of the week; you can now return to comfort without having to manually adjust the temperature. Perfect for anyone with a busy lifestyle, the 7-Day Controller is a great way to regulate your energy usage without compromising on comfort.

EER = Energy Efficiency Ratio
 COP = Coefficient of Performance
 AEER = Annual Energy Efficiency Ratio
 ACOP = Annual Coefficient of Performance
 * Sound levels rated at lowest fan speed

** Refer to Technical Manual.
¹ Low-SHi = Low/Medium/High/Super High
² SHi = Super High
³ SPL = Sound Pressure Level measured under rated operating frequency

⁴ Maximum length is inclusive of height differential, i.e. (20/12) means the pipe can be 12m high and 8m across for a total length of 20m
