HEAT PUMP CONTROLLER

Key Features

User-friendly Interface

Operation panels are easier to see and simple to use with big visible-sized icons on the full colour 3.5 inch touch panel display.

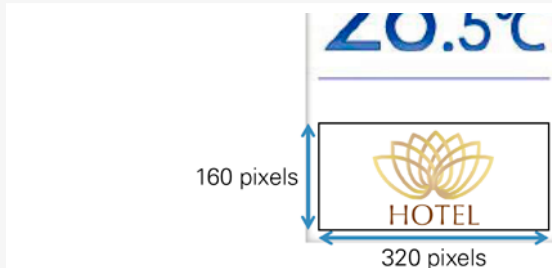

Customised Flexibility

180 colour patterns to select from for control parameters or background on the display. Users can also customise the panel to display the selected parameters only. For example, hotels can choose to only display the basic settings of ON/OFF, set temp or fan speed.

Logo Image Customisation

Logo images can be displayed on the initial screen for a more customised and user-friendly experience.

Bluetooth Low Energy Technology

The controller can communicate with a smartphone or tablet device via Bluetooth Low Energy (BLE). Operation and Settings Apps are available on the App Store.

Other Features

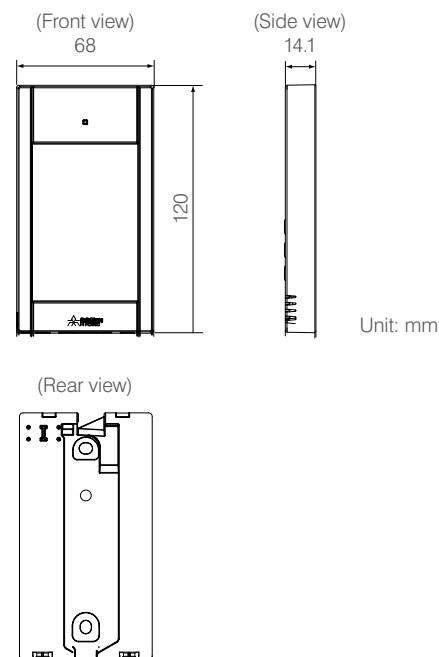

- Available in White or Premium Black
- Convenient Installation
- Multilingual Support
