Matte Silver†

Matte Gunmetal†

Advanced Inverter Technology

Utilising multiple temperature sensors and Neuro Fuzzy Logic, the CX memorises your usage patterns and seamlessly adapts its power levels to minimise temperature fluctuations whilst maximising energy efficiency.

Humidity Drawer with Vitalight Technology

Slow down the wilting process of leafy greens and maintain their original vitamin and antioxidant levels with the unique Vitalight Amber LED Lighting System. Fruit and vegetables stored in this specially designed Humidity Drawer with its integrated Vitalight Technology will last significantly longer in comparison to conventional vegetable crisper bins.

Non-Plumbed Automatic Ice Maker

Always have fresh, clean ice with the Non-Plumbed Automatic Ice Maker. As there is no separate plumbing connection required, this cost-effective approach to ice making means the fridge can be placed anywhere in the kitchen, not just near existing pipe work. Simply fill the removable water tank and the ice maker is ready to go.

Supercool Chilling Case

Keep meat and fish fresher for longer without having to freeze them. The Supercool Chilling Case is ideal for storing fresh meat for up to seven days and fish for up to five days without the need of a freezer.

*300 – 399L Multi Drawer Category

1. Refrigerator Compartment

- Tempered Glass Shelves can hold up to 100kg
- Supercool Chilling Case stores meat and fish for up to seven days
