699W x 709D x 1798H mm  
Only available in Right Hand

492 Litres

Stainless Steel      Black Stainless

\*450L Multi Drawer Category

### Advanced Inverter Technology

The use of super-efficient Inverter Technology combined with monitored temperature sensors installed throughout the refrigerator makes the CX Range one of the most efficient in New Zealand. With Neuro Fuzzy Logic Technology, the CX Range learns from and adapts to your lifestyle, optimising output for unparalleled energy efficiency.

### Whisper Quiet – Ideal for Open Plan Living

The Large Capacity CX Range is truly whisper quiet, rated at only 16dBA. In fact, no other refrigerator in its class is quieter!

## Key Features

### Humidity Drawer with Vitalight Technology

Slow down the wilting process of leafy greens and maintain their original vitamin and antioxidant levels with the unique Vitalight Amber LED Lighting System. Fruit and vegetables stored in this specially designed Humidity Drawer with its integrated Vitalight Amber LED Lighting System will last significantly longer in comparison to conventional vegetable crisper bins.

### Non-Plumbed Automatic Ice Maker

Always have fresh, clean ice with the Non-Plumbed Automatic Ice Maker. As there is no separate plumbing connection required, this cost-effective approach to ice making means the fridge can be placed anywhere in the kitchen, not just near existing pipe work. Simply fill the removable water tank and the ice maker is ready to go.

### Freezer Drawer

The Freezer Drawer is divided by a sliding tray at the top that can be pushed back to reveal the rest of the drawer. The Freezer Drawer is roomy enough to fit bulky items such as ice cream tubs, loaves of bread and frozen vegetables. The top tray is ideal for storage and organisation of flat pack items such as meat packs. The bin also can be completely removed for easy cleaning.

## MR-CX492 KEY FEATURES
