Advanced Inverter Technology with Neuro Fuzzy Logic

The use of super-efficient Inverter Technology combined with eight monitored temperature sensors installed throughout the refrigerator makes the EX Series one of the most efficient in New Zealand. With Neuro Fuzzy Logic Technology, the EX learns from and adapts to your lifestyle, optimising output for unparalleled energy efficiency. As a result, the EX has been awarded a 3.5 Star Energy Rating.

Key Features

Humidity Drawer with Vitalight Technology

Slow down the wilting process of leafy greens and maintain their original vitamin and antioxidant levels with the unique Vitalight Amber LED Lighting System. Fruit and vegetables stored in this specially designed Humidity Drawer with its integrated Vitalight Amber LED Lighting System will last significantly longer in comparison to conventional vegetable crisper bins.

Non-Plumbed Automatic Ice Maker

Always have fresh, clean ice with the Non-Plumbed Automatic Ice Maker. As there is no separate plumbing connection required, this cost-effective approach to ice making means the fridge can be placed anywhere in the kitchen, not just near existing pipe work. Simply fill the removable water tank and the ice maker is ready to go.

Multifunctional Versa Freezer Drawer

Preserve food quality while maintaining the texture and taste with the Versa Freezer Drawer. Offering advanced freezing options such as Soft Freezing, Hot Freezing and Supercool Freezing for ultimate convenience and versatility.
