Glass Black

Glass Gunmetal

Glass Silver

Glass White

### Glass Door Panels

The LX Series features stunning glass flat panel doors, presenting a striking finish in either black, gunmetal, silver or white. The toughened glass panels not only look great, they are also durable, easy to clean and dent resistant! Designed to be the perfect family fridge, the glass panels can also act as a whiteboard. Whether it's your grocery list or simply a canvas for the kids' art, use a whiteboard marker to make your own statement.

### Humidity Drawer with Vitalight Technology

Slow down the wilting process of leafy greens and maintain their original vitamin and antioxidant levels with the unique Vitalight Amber LED Lighting System. Fruit and vegetables stored in this specially designed Humidity Drawer with its integrated Vitalight Technology will last significantly longer in comparison to conventional vegetable crisper bins.

### Non-Plumbed Automatic Ice Maker

Always have fresh, clean ice with the Non-Plumbed Automatic Ice Maker. As there is no separate plumbing connection required, this cost-effective approach to ice making means the fridge can be placed anywhere in the kitchen, not just near existing pipe work. Simply fill the removable water tank and the ice maker is ready to go.

### Freezer Drawer

Store and organise flat pack items like meat packs in the top tray, and slide it back to reveal a large drawer with even more storage space for those bulkier items such as ice cream tubs. The easy to remove drawers also make cleaning a breeze.

### Supercool Chilling Case

Keep meat and fish fresher for longer without having to freeze them. The Supercool Chilling Case is ideal for storing fresh meat for up to seven days and fresh fish for up to five days without the need to freeze.

\*500 - 599L Multi Drawer Category

## 1. Refrigerator Compartment – French Doors

- Tempered Glass Shelves can hold up to 100kg
